260 years of Faber-Castell: Perfect Pencil anniversary edition

Telling your own success story – and continuing to write it masterfully at the same time: Faber-Castell has achieved this feat with a special limited edition for the company's 260th anniversary. The anniversary edition of the Perfect Pencil is a tribute to a pencil that was already part of the product range in the middle of the 19th century – and is now the centrepiece of the Graf von Faber-Castell Collection.

To mark its anniversary, Graf von Faber-Castell is presenting an exclusive interpretation of the Perfect Pencil – the classic pencil that can write, sharpen and erase. With the eraser under the end cap and the integrated sharpener in the protective cap, the anniversary model has all the characteristic features of this all-rounder – and also comes with luxurious extras that are closely linked to the history of Faber-Castell:

The pencil itself is deep black and the metal parts have an anthracite-coloured PVD coating. The decorative engraving of stylised pencils on the cap, which also doubles as an extender, just like on the historic model, is a delicate reference to the company's roots. Finally, a real jewel gleams on the top of the cap: an artistically faceted jade stone. In Far Eastern mythology, the shimmering green gemstone represents both lived tradition and a promising future – ideal for an anniversary that pays tribute to the merits of the past as well as the exciting challenges of the present.

Perfect Pencil anniversary edition: EUR 490.00
limited edition of 750 pieces;
number (1/750) engraved in the clip ring of the extender;
available from 1 January 2021
